## CANCELLATION OF PUBLIC HEARING Proposed Westwood Avenue Historic District Designation

Dear Property Owner:

On August 8<sup>th</sup>, the Westwood Historic Commission held an informational meeting on the proposed Westwood Avenue Historic District designation and the Borough's preservation consultant, Gregory Dietrich of Gregory Dietrich Preservation Consulting presented the proposal. In addition to his presentation, the floor was opened up to the public to take questions and comments about the designation process, justification for the district, research informing the designation report, and the implications of designation for property owners.

In response, the Commission would like to review the public's questions and comments in advance of scheduling the public hearing. **Accordingly, the Public Hearing for the proposed historic district designation for the Westwood Avenue Historic District scheduled for September 12<sup>th</sup> has been cancelled.** Pending the Commission's review, another informational meeting may be scheduled in advance of the public hearing to garner additional comments and questions from the public.

We would like to thank those who took the time to attend the August 8<sup>th</sup> informational meeting and let their opinions be heard. We look forward to considering the concerns of property owners within the context of preserving Westwood's historic past.

Very truly yours,

The Westwood Historic Commission
